2022

12th International Mycological Congress (IMC12) – Fungal Biology and applications

25–29 July 2022

RAI Congress Centre, Amsterdam, The Netherlands

<https://imc12.org/>

Correction

In Table 1 in the paper by Adjic *et al.* (*IMA Fungus* 7: 253–263, 2016), the location of the two isolates of *Teratosphaeria destructans* DRF1168 and DRF1169 was incorrectly given as Sumatra, but should have been Timor in Indonesia. The authors regret any confusion that this error may have caused.

Vera Adjic (Vera.Andjic@agriculture.gov.au)
